

#### General Description

Junckers Decking Oil is suitable for outdoor treatment and maintenance of softwood, including larch and most kinds of hardwood. Junckers Decking Oil Nature is used when a natural look is desired, whereas Junckers Decking Oil Golden is used when a warmer color is required.

#### Technical Data

<b>Package sizes:</b>	0.75 and 2,5 liters.
<b>Colours:</b>	Nature and Teak.
<b>Coverage:</b>	12-15 m <sup>2</sup> per litre.
<b>Application:</b>	Brush.
<b>Drying time:</b>	24-48 hours between each treatment.
<b>Cleaning of tools:</b>	White spirit or similar.
<b>Storage:</b>	2 years if unopened and stored at 20°C in sealed original container.

#### Directions for use

Aged or worn decks should be cleaned with JUNCKERS DECKING CLEANER before being treated with oil. Before treatment with JUNCKERS DECKING OIL, the surface to be treated should be clean and dry.

JUNCKERS DECKING OIL should be applied in dry, shaded conditions since direct sunlight and other sources of intense heat will impair the treatment.

With a brush apply a generous amount of JUNCKERS DECKING OIL to the surfaces to be treated. Allow the oil to soak into the wood for up to a maximum time of 20 minutes, If areas dry within this time move the oil around or apply more oil. The oil should saturate the wood, remain wet on the surface and not be allowed to initially dry as this can make the surface patchy. After 20 minutes remove all the surplus oil from all surfaces, joints, gaps and crevices using a clean, dry cloth.

#### Important!

The content of both cans and buckets has to be stirred, and sprays have to be shaken vigorously before use to obtain a similar colour on the wooden surface.

#### Important!

Before use of the product, read the label on the container carefully.
