

keracorner CO

KERACORNER CO is a complete range of rounded corner profiles conceived to protect exposed external corners and conceal chipped tiled corners. Typically used in heavy trafficked commercial and industrial settings, this profile contains internal, shock-absorbing self-adhesive strips. Available in a variety of sizes, materials and finishes, it meets all technical needs and requirements.

Stainless steel and Brass Section

Aluminum Section

KERACORNER CO 25 A11A Self-Adhesive Powder-Coated Aluminum

This aluminum profile is color-coated with a polyurethane powder coat that is UV-resistant. It is equipped with heavy-duty adhesive, ready for installation. The 1" (25mm) corner width meets technical and safety requirements while maintaining aesthetic appeal. Suitable in commercial, industrial and residential settings.

	AxB = in	mm	Art.		
Material: Powder coated Aluminum	1x1	25x25	CO	25	A11A
Finish: Pure white					
Length: 8'10" (2.70meters)					

KERACORNER CO 25 A*A Self-Adhesive Anodized Aluminum

This anodized aluminum rounded corner profile is equipped with heavy-duty adhesive, ready for installation. The 1" (25mm) corner width meets technical and safety requirements while maintaining aesthetic appeal. Suitable in commercial, industrial residential settings.
