

STAIRTEC AE profiles offer a practical solution to common challenges faced with step treads, such as chipping along vulnerable step edges. The 90° section hides edge imperfections, conceals the riser edge and prevents future cracking while acting as a design element of the staircase. The profile must be fastened with flathead screws.

STAIRTEC AE - OLN Polished Extruded Brass

This profile should be applied upon the completion of the stair. The non-slip grooved top surface hides edge imperfections and is especially suited for high traffic areas.

	BxH = in	mm	Art.		
Material:	13/16x13/16	21x21	AE	21	OLN
Extruded brass	1-3/16x1-3/16	30x30	AE	30	OLN
Finish: Polished (OLN)					
Length: 8'10" (2.70meters)					

STAIRTEC AE 21 A*N Extruded Anodized Aluminum

This anodized aluminum profile is available in three finishes: silver (AS), gold (AO) and bronze (ABN). The silver version is recommended for high traffic areas; the gold and silver are recommended for low traffic areas.

Material:	13/16x13/16	21x21	AE	21	ASN
Extruded Anodized Aluminum	13/16x13/16	21x21	AE	21	AON
Finish*: Silver (ASN), Gold (AON), Bronze (ABN)	13/16x13/16	21x21	AE	21	ABN
