

The **LEVELTEC RP** edge profiles can be used as trimming or to join floor types of different thicknesses. This profile section hides tile and carpet edge imperfections. **LEVELTEC RP** profiles have a sectional height ranging from 3/16" to 1/2" (4.5 to 12.5mm) and can compensate for elevation differences of 1/8" to 17/32" (3 to 14mm).

This product is equipped with heavy-duty adhesive, ready for installation. It is also available in a pre-drilled version, fastened with flathead screws.

leveltec RP

Installation of self-adhesive version:

- 1) Make sure the base is solid, flat, level, clean, and dry.
- 2) Cut the profile to the desired length and remove adhesive backing.
- 3) Press uniformly downwards on to the profile to apply. Do not hammer.

Installation of pre-drilled version:

- 1) Cut the profile to the desired length and mark the position of the pre-drilled holes.
- 2) Fasten with flathead screws.

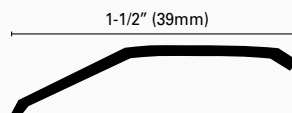

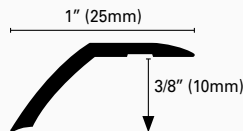

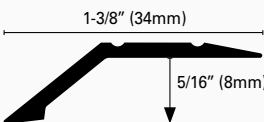

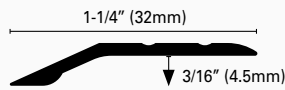

LEVELTEC RP-OL* Polished Brass

This profile is available in different heights, suitable for edging most types of flooring.

Due to its reversible shape, the **RPR 39** profile can be used on both sides, joining floor thicknesses from 5/16" to 17/32" (8 to 14mm).

Available in self-adhesive (A*A) and (A*F) versions.
